C. Recommended language skills

The sending institution, following agreement with the receiving institution, is responsible for providing support to its nominated candidates so that they can have the recommended language skills at the start of the study or teaching period:

Institution [Erasmus code]	Language required	Recommended language level
G ATHINE 02	English	B1
PL LUBLIN 03	English	B1

For an easier and consistent understanding of language requirements, use of the Common European Framework of Reference for Languages is recommended (see <http://europass.cedefop.europa.eu/en/resources/european-language-levels-cefr>)

At the School of Architecture NTUA : There are not any courses given in English in the curriculum of the School, except for one which is organized every year especially for our Erasmus students, who usually find it very attractive. However, there is no requirement for exchange students to know Greek – on the contrary, a good level of English is recommended. Given that our Erasmus students very rarely can understand the language before coming to Athens, we always find alternative solutions for them. In all the project courses the work is done in small groups, so when the Erasmus students participate in the groups the corrections are done in English. Even if they wish (or must) choose purely theoretical courses (for example history or theory of architecture), based on conferences which they will not be able to understand - at least at the beginning - the professors give them international bibliography in a commonly understood language, as well as extra corrections if needed, and they are asked to prepare an essay working in a parallel, but not exactly the same, way as the Greek students do. The exchange students are not obliged to written texts or written exams in Greek. We must also notice in addition to these, that almost everybody -professors as well as students- speak English (and very often a second foreign language too, which usually is French, Spanish or German). Moreover, for those of the exchange students who wish to get familiar to the language, Greek language courses for beginners and/or advanced students are organized, free of charge, every year during the fall semester.

This means that a unilateral decision to discontinue the exchanges notified to the other party by 1 September of one academic year will only take effect as of 1 September of the following academic year. The termination clauses must include the following disclaimer : "Neither the European Commission nor the national Agencies can be held responsible in case of a conflict".

In the event that notice of termination of the agreement is given, students who have already been selected and accepted for the exchange programme may still participate. Notwithstanding the termination of the agreement, each institution agrees that it will continue to fulfill its responsibilities to exchange students already registered at their institution until the completion of their particular exchange period.
